

Varta Professional

Varta Professional Deep Cycle Batteries

The increasing levels of electronic devices found on boats, yachts and motorhomes has led to a greater demand being placed on the batteries installed.

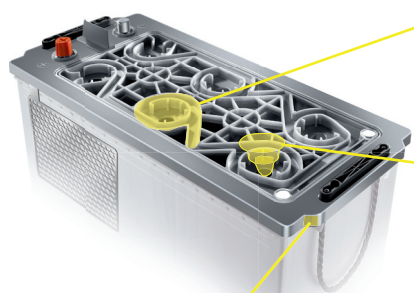

Varta meets these demands by supplying a battery specifically designed to supply motorhomes and marine craft with energy whilst delivering exceptional performance characteristics - The Professional deep cycle range.

Varta's Professional deep cycle batteries are based on tried and tested flooded technology, the product of years of continuous improvements in cyclic durability.

The importance of Labyrinth lid technology:

1. The water vapour condenses on the battery lid
2. The Labyrinth lid ensures the water flows back into the battery

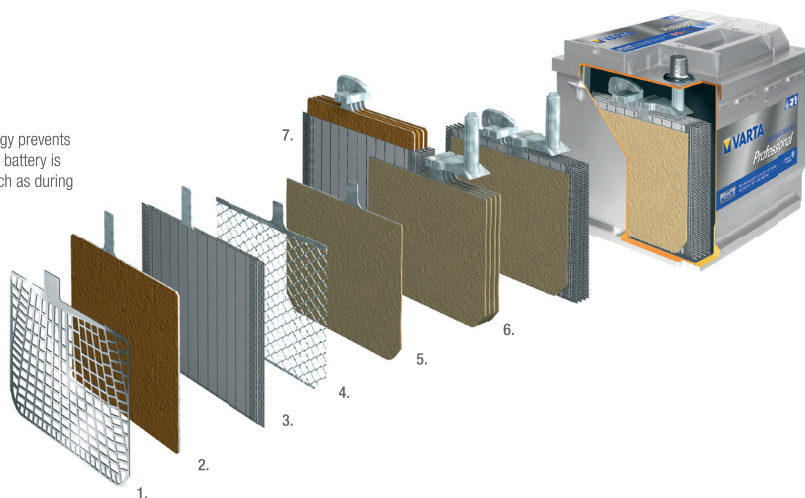

Spill Proof
Our innovative Labyrinth lid technology prevents any liquid from leaking out when the battery is tilted up to 90° for short periods (such as during installation or removal).

Safety Caps
The safety caps act like a breakwater inside the battery and provide maximum protection against leaks even on extremely rough terrain.

Single Point Venting
Single point venting is an integrated feature of the Labyrinth lid that ensures any gas produced is safely discharged.

Integral Flame Arrestors
Integral flame arrestors protect the battery from sparks and flames.

Deep Cycle	Part Number	ETN	Voltage	Capacity (C20)	CCA (EN)	Dimensions (mm) L x W x H	Weight (Kg)	Layout/ Terminal
	LFD60	930060056	12V	60Ah	560A	242 x 175 x 190	16.5	0/1
	LFS75	812071000	12V	75Ah	420A	260 x 175 x 225	18.5	1/1
	LFD75	930075065	12V	75Ah	650A	278 x 175 x 190	18.9	0/1
	LFD90	930090080	12V	90Ah	800A	353 x 175 x 190	23.7	0/1
	LFS105	811053057	12V	105Ah	570A	330 x 175 x 240	26.9	2/1
	LFD140	930140080	12V	140Ah	800A	513 x 189 x 223	36.6	3/1
	LFD180	930180100	12V	180Ah	1000A	513 x 223 x 223	45.1	3/1
	LFD230	930230115	12V	230Ah	1150A	518 x 276 x 242	56.8	3/1

VARTA PROFESSIONAL DEEP CYCLE: TECHNOLOGY YOU CAN RELY ON

Whether large or small, our innovative VARTA Professional Deep Cycle batteries provide you with optimum performance, thanks in large part to their cyclically optimised plate design and Labyrinth lid technology.

Features:

- High cyclic durability
- Suitable for dual power use: starting and deep cycle
- Maintenance free
- Safer to use: can be tilted to 90° for short periods
- Long Lasting and durable
- Ideal for seasonal use
